Retention periods - summary

Hopefully, most of the periods outlined below are self-explanatory. By *superseded* it is meant that one version of a document is replaced by another (e.g. when version 1 of a policy is replaced by version 2 or 2018 by 2019). Items reaching their archive date, will be automatically archived unless a review/update has been completed. It is the Groups' responsibility to carry out these reviews (i.e. when NG get to 2019, it should be scheduled into their Business Plan to review the Best Practice Guide on *Exploiting and protecting the network*).

* By *Conference Proceedings*, we mean a formal publication that identifies the key issues presented and discussed within an event. (This would be considerably more detailed than a standard event report).
