

# Your community needs you!

## Apply now for the 2020 ucisa bursary scheme

Funding from the ucisa bursary scheme gives IT and IT-related staff like you the opportunity to attend conferences and keynote technology events you might otherwise be unable to attend.

You might be part of a central IT service or working with technology enhanced learning, digital skills development, project management or business change management so no matter what your IT discipline, grade or experience, the ucisa bursary is open to all. If successful, all we ask in return is that you attend the event on behalf of ucisa, and then share what you've learned with the higher and further education community.

*“I was lucky enough to receive the ucisa bursary to go to Cisco Live in Florida. I would encourage anyone to apply for the bursary. You learn so much and it gives you a massive sense of achievement. It also really does make a difference, to your personal and work life.”*

**Rhiannon Gillespie,**  
Service Desk Advisor, Cardiff University

*“My ucisa bursary paid for me to attend a conference in Chicago on mobile learning. In terms of career development, applying for this bursary was probably one of the most productive things I've done.”*

**Dom Pates, Senior Education Technologist,**  
City, University of London

*“Attending the Audiovisual and Education Technology Management Conference in Australia was one of the most rewarding experiences in my career to date.”*

**Ben Sleeman, Service Development Assistant,**  
University of Greenwich

Applications for the 2020 ucisa bursary awards are now open. Further information and relevant terms and conditions, are now available on the ucisa website at [www.ucisa.ac.uk/2020bursary](http://www.ucisa.ac.uk/2020bursary)
